

Dear Colleagues,

It gives us great pleasure to inform you that we are organising the 14th International Conference ISAAC, to be held in Barcelona from 24th to 31st July 2010.

Under the theme "Communicating Worlds" the 14th International Conference ISAAC aims to bring together all professionals, users and families who use and promote Augmentative and Alternative Communication (AAC) worldwide.

In Barcelona there will be space for the exchange of experiences, studies, opinions and debates regarding the AAC. Our goal is to learn from each other and to ensure that knowledge and experience flows and circulates for the benefit of all users of AAC.

The international conference in Barcelona will last for a total of 8 days:

2 days of training where top experts will conduct workshops on specific topics related to AAC.

4 day conference where it is expected that all participants will be able to contribute their experiences and views in relation to AAC, from an educational, social, health, and personal point of view.

2 days of scientific symposium where the principal investigators in the world show lines of research and development in current and future AAC.

Leading global companies from the sector will also be present with a permanent exhibition of their products, including a space for demonstrations of the latest developments in AAC Systems.

We hope you will be able to come to Barcelona and take part in the conference and enjoy the city.

Cristina Larranz

Jordi Escoin

Co-chairs of the ISAAC Biennial Conference Committee 2010
